

Form Sheet - Workshop

Microscopy Imaging Center

Description

MIC Workshops are designed as teaching offers by microscopy experts of the University of Bern to consolidate selected high-end microscopy methods. PhD students enrolled in the Graduate School for Cellular and Biomedical Sciences ([GCB](#)) can receive ECTS by attending a workshop and successful pass of the performance assessment. The docent is entitled to request successful pass of the lecture series on Advanced Microscopy (KSL 9256) as registration requirement. This form is considered a confirmation that the student has fulfilled the requirements and can be credited with the corresponding ECTS points.
