Bern, February 28, 2017

This MIC newsletter intends to keep you informed about upcoming events in the framework of the MIC and further important communications. Please feel free to forward this information to your colleagues who are interested in microscopy.

Upcoming events are

- **March 30-31, 2017:** [Training in automated Live cell imaging](#).
This event is [jointly organized with Zeiss](#) and will be a demonstration and Hands-On of the new [Zeiss Celldiscoverer](#).
- **April 5, 2017:** [Mini-Symposium on Image Processing](#)
- **May 4, 2017:** Next MIC commission meeting
You can also find the dates for [MIC Commission meetings on our MIC-Web](#).
- **June 28, 2017:** [MIC Research Day](#).
Please nominate candidate speakers via [E-mail!](#)
The program of the past event in 2016 is attached.
- **June 28-30, 2017:** MIC Summer School
This event is compulsory for PhD students of the Cutting Edge Microscopy specialization!
Further information is coming soon.

Updates in the MIC webpage

- The [PhD specialization „Cutting Edge Microscopy“](#) is now online.
- A list with [all MIC events](#) is available for download.

For your information

- The [European Light Microscopy Initiative](#) publishes [courses and workshops](#) as well as [meetings and conferences](#) in microscopy related topics. This information is also published in the „[Links](#)“ area of our MIC Webpage.

The **new MIC rates**, effective from July 1, 2017, are attached to this mail. Current MIC rates are also available for [download](#) on the MIC webpage.

We are happy to announce any events related to microscopy on our webpage, please send an e-mail to ruth.lyck@tki.unibe.ch.

Best regards
Ruth Lyck
MIC coordinator
