Program

Session 1

- | | | |
|-------|---------------------------------------|--|
| 10:00 | Britta Engelhardt
TKI, Bern | Welcome |
| 10:15 | Susan Gasser
FMI, Basel | <i>The Power of Microscopy and Imaging</i>
(Keynote) |
| 11:15 | Dimitri Fotiadis
IBMM, Bern | <i>Membrane protein structure determination</i>
<i>by high-resolution microscopy techniques</i> |

Lunch

Session 2

- | | | |
|-------|--|--|
| 13:30 | Peter Meister
ICB, Bern | <i>Sequences and signals for genome</i>
<i>3D folding</i> |
| 14:15 | Thomas Nevian
Physiology, Bern | <i>Astrocytes are essential for synaptic</i>
<i>plasticity</i> |
| 15:00 | Benoît Zuber
Anatomy, Bern | <i>Molecular structure of nicotinic</i>
<i>acetylcholine receptor-rapsyn clusters</i> |
| 15:45 | Richard Smith
IPS, Bern | MorphoGraphX: visualization,
<i>segmentation & analysis of 3D image data</i> |

Special

Apéro

You help us planning the symposium by signing up under
www.mic.unibe.ch until 30.11.11 (not mandatory)
